

Setting up POP3/IMAP on an iPhone, iPad or iPod Touch

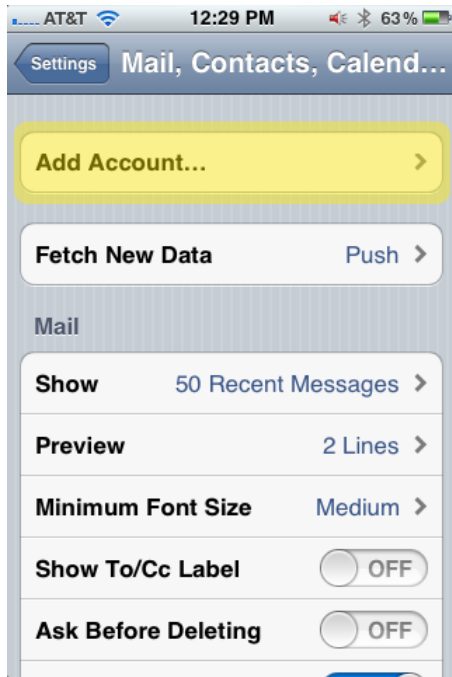

Open the “Settings” app on your home screen.

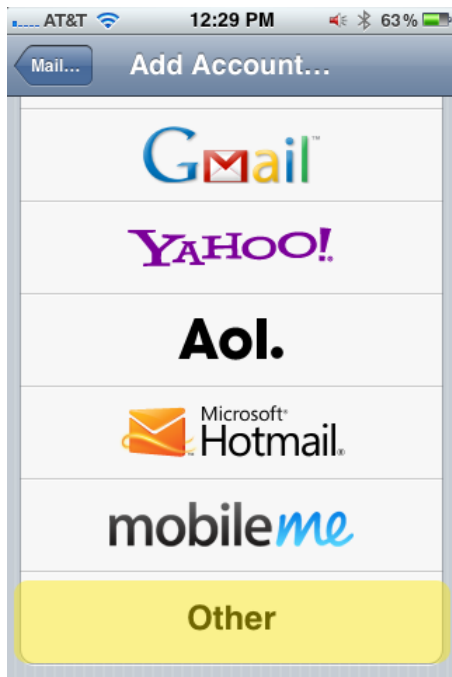

Select “Mail, Contacts, Calendars”

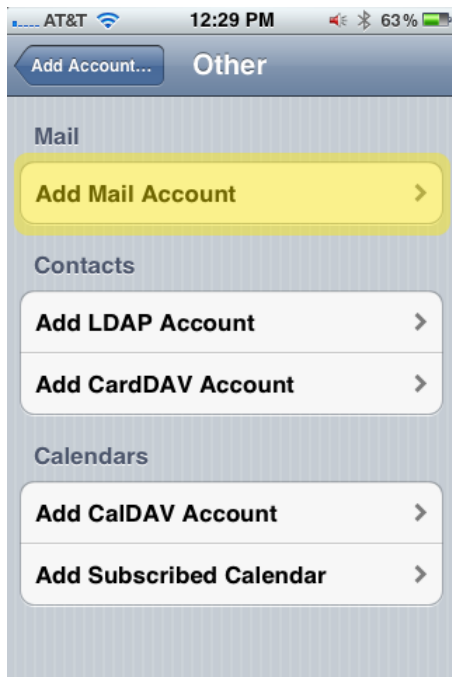

Select "Add Account"

Select "Other"

Select “Add Mail Account”

Enter:

Name: Your name

E-mail: Your e-mail address

Password: Your password

Description: Whatever you want this account to be called on your phone

Select the “IMAP” button.

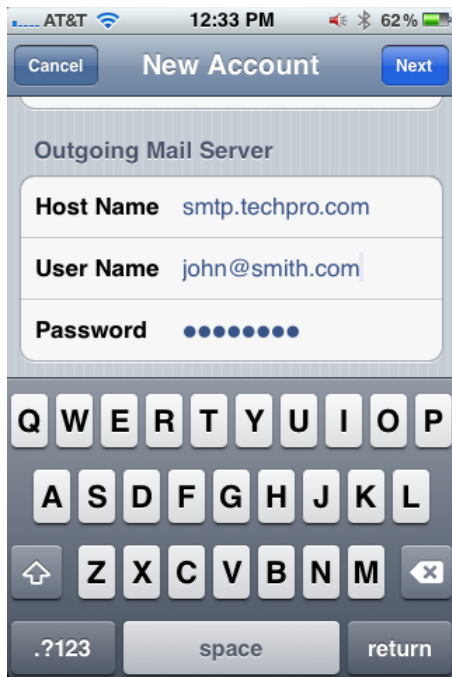

Enter “pop3.techpro.com”

Enter e-mail address for your User Name.

Your password should be filled in already.

Enter "smtp.techpro.com"

Enter e-mail address for your User Name.

Enter your password.

Press "Next"

If this screen pops up, click the "Yes" button.

Press "Save".

Your account is now setup!
Just go to the "Mail"
application to see your
mail.
